I am a skilled developer with knowledge and experience working on web and mobile projects using technologies such as Reactjs, Flutter, Swift and its environments. I've worked in the tech industry on software development of small scale projects for more than 2 years. I am a person that always is looking for new challenges, creating solutions and committed with the requirements to contribute to the performance and competitiveness of the company. I have skills to lead processes, teamwork, decision making, quick learning and excellent interpersonal relationships.
